Report of School Board.

To the citizens of the town of Gilmanton the school board submit their annual report. The whole number of schools supported the past year has been eleven, instead of twelve last year. Owing to the small number of scholars in the Gale school, it was thought best to transport them to the Sanborn and Smith Meeting House schools. Whole number of scholars attending school during the year in all schools has been 174. Average attendance 162, which is quite a falling off from number reported last year, 187. This is accounted for by quite a number of families with children removing from town, while a few others have passed beyond the school age and entered some higher school, or else have gone out into the world for themselves. Number of different teachers employed during the year has been fourteen, twelve female and two male. Our teachers as a whole have done very satisfactory work, all seeming to realize the importance and dignity of their calling. It will be noticed by reference to the annexed tables that we are still maintaining three schools with an average attendance of six scholars or less. The particular location of these three schools, being quite remote from any other school, seems to be a handicap to uniting them with any other schools. The one great obstacle in managing school affairs in Gilmanton is the large area of the town, as compared with the small number of scholars therein. It is very gratifying to your school board to be able to report an improvement in the regular attendance. Regularity in school work is one of the seven cardinal virtues of a good school. Tardiness is a direct injury to the whole school. The confusion of hurrying to seats, gathering together of books, etc., by tardy ones, at a time when all should be at study, cannot fail to impede the progress of those who are regular and prompt in attendance. The rule requiring prompt

and regular attendance is demanded for the good of the whole school. It is, therefore, a rule for the government of the schools, and must be regarded as proper and reasonable. Pupils may be forbidden to remain absent from school without a satisfactory excuse. They may be required to bring written excuses for absence. Continued or repeated absence of one of a class are not only injurious to the absentee, but if allowed beyond a certain point are calculated to demoralize those who attend and derange the orderly instruction of the teacher.. It is the welfare of the whole school, and not the welfare of a single person, that must be considered when making a rule for the government of pupils.

It will be noticed that the bill for books this year considerably exceeds that of any previous year. It has been customary in years past, when an exchange of books was to be made, to do so with only one series at a time. It was thought best this year by a majority of the board to exchange readers, grammars, physiologies, and writing books, all of which makes quite an expense.

REPAIRS.

Our school buildings are in very good repair. One or two will need shingling this spring, and painting. We have about $200 repair money in the treasury, which will probably be enough to meet all demands the coming year. Your school board are very hopeful that the district will continue to raise money sufficient to maintain thirty weeks of school the coming year.

Respectfully submitted,

MARY A. WIGHT,
ALICE M. MORGAN,
FRANK N. MERRILL,

School Board of Gilmanton.

Gilmanton, N. H., Feb. 25, 1909.

Report of School Board.

To the citizens of the School District of Gilmanton we herewith submit our annual report.

The advancement made by our schools during the past year has been quite satisfactory. Not all that we could wish in some localities, but taken as a whole the noble work of educating the children has been pushed with vigor intelligence and determination.

Whole number of schools supported during the past year has been eleven. Number of scholars enrolled 177. Reference to our statistical table will give information relative to teachers, length of terms, salaries etc.

The board have not made any very extensive repairs on buildings the past year but have had an eye upon the property and made minor repairs in several cases. A substantial flag pole has been erected on the Iron Works school grounds at quite an expense. New blackboards have been installed in some of the Lower Gilmanton schools and the Allens' Mills school has received two coats of paint outside, which with other repairs make the old school house look quite attractive.

There are very many important subjects which we might call your attention to at this time in relation to our schools but we eliminate all and come to this most vital matter, namely:—the constant attendance of our children at school reference to your file of town reports will remind you that this matter has been carefully and earnestly directed to the parents attention.

Our average attendance for the past year has been far too low and looks as if this feature of our school work is being overlooked by the parents in this district. No school can be run with any degree of success unless the rules of punctuality and every day attendance are strictly observed.

The influence of children coming into school late or not

at all for the day cannot be estimated. We must put this easy-going-slip-shod method of attending school out of existence, no man succeeds in the business or professional world unless he first learns to be punctual and regular.

Our money, the efforts of the teacher and most deplorable of all, the school time of the children, price-less boon, are all wasted if these laws are set aside.

Our last legislature enacted a law requiring the state to furnish financial aid to districts of small valuation and large territories but the amount of this help depends upon the average attendence of the pupils.

We urgently appeal to parents and people of our good town to assist us in obliterating tardiness and abscences from our registers.

The board is still handicapped by the fact that in all towns about us teachers are receiving much larger salaries than we are able to offer. It looks as if this district would have to increase its salaries or make the "other fellow" pay less, otherwise our very able corps of teachers is in danger of being depleted.

Before closing these remarks we wish to express our appreciation of the faithful work performed by our teachers during the past year and also to thank the parents and good people of our town for their encouragement and kind words which have helped us beyond measure in making our school year a success.

With high hopes for the coming year, we solicit the aid of all the people of our town in helping to make 1910 the best school year in Gilmanton's history,

Alice A. Morgan,
Frank N. Merrill,
Stephen L. Weeks,
School Board of Gilmanton.
